

30th June 2010

Dear PIHC Cycling Group and Friends of Cycling

I am pleased to announce that PIHC Cycling Group have partnered with **LGPA Cleats and Cranks**.

Established in late 2008, LGPA Cleats and Cranks is a cycling group consisting of Town Planners and their associated professional fields. The idea is to get 'Planners turning the Wheels' to not only provide a positive and social recreation opportunity for its participants, but to also set up a strong network amongst these professionals to start tackling and finding solutions to cycling and planning issues in Western Australia. If you're interested in learning more about LGPA Cleats & Cranks Riding Group email cycling@lgpa.org.au or go to their website - [LGPA Cleats and Cranks](#)

Through this partnership we will be supporting and running a number of joint activities with LGPA Cleats and Cranks during 2010 and 2011. These include:

- Future Planning and Cycling Seminar,
- Future Biomechanics Information Workshop,
- Future Joint Ride (route to be determined),
- PIHC Cycle Skills Course

We welcome LGPA Cleats and Cranks to the Group and we look forward to fostering a long lasting partnership between LGPA Cleat and Cranks and Perth Integrated Health Clinic.

We also wish to extend an invitation to other social cycling groups out there to form a similar non political and neutral affiliation with us if they wish to partake of our clinical services for cyclists, events, programs and training courses that we organize for the cycling community here in Western Australia.

Yours sincerely

Ian Wee
Director Sportif
Perth Integrated Health Cycling Group
