30th March 2009

Balcatta

Attn Ian Wee

Dear Ian

This letter is to express our sincere thanks and great appreciation for the excellent presentation you gave to our agents and distributors at the training Seminar held on the weekend of the 28th March at St John of God Hospital

From the very opening of the course you set the mood for the day and relaxed all the participants, the literature you had prepared for the course was excellent and being presented in easy to understand "layman's terms" along with the props you used it made it a very informative course and by using examples such as comparing a household electrical system to parts of the human anatomy it made the course very retentive to all suffice to say that none of the attendees wanted the day it to end as they enjoyed it so much

The training you gave passed on to us invaluable knowledge of the human body and as to the methods the WBV 3000 could best be utilised to help people was presented in a comprehensive, easy to digest manner and your humorous interludes along the way ensured that the seminar was not in the least bit boring or tedious which kept the attendees remaining focussed on the discussions and the training

Ian was great to be able to attend a seminar and listen to such a motivated, electrified presenter as yourself and obviously you have also skilled Lucy in a similar manner along with Julian who both showed a willingness to share their knowledge with our people in the same simple down to earth terms

Ian all in all it was a terrific day and every one of our people went away enriched by the information and the positive business motivation that you passed on to them which made the day a huge success

Ian please feel free to use this letter to pass on as a reference should it ever be needed

Yours sincerely
