

## **KEY MODULE – Colitis Testimonial**

May 2007

Ian Wee and PIHC staff have helped me and my family to obtain and maintain good overall health over a number of years.

Most recently I have been able to reduce about 95% of pain and problems associated with colitis (bowel inflammation) by having Key Module treatments.

Ian recommended that I try this therapy as I did not want to take the prescribed colitis medication as the possible side effects of this drug are worse than the complaint. I want to thank all PIHC staff for their continuing care of my physical and mental well-being.

Annette

Danae Beard is the Senior Occupational Therapist working at Perth Integrated Health Clinic, who is also an accredited practitioner for Key Module treatment. Many of Danae's patients present with colitis.

Please email Key Module Coordinator, Lucy Liongue (<u>lucy@pihc.com.au</u>) for more information or call 9240 5266 to book an Initial Appointment.
