

Pat, 58 years
Key Module Testimonial - July 2007

Patient Goals:

- **Lymphoedema Management**

I have been going to Perth Integrated Health Clinic for 1.5 years and my body has responded so well to the treatment.

With the Key Module I have had great relief in the rhomboid muscle - a problem I had for 7 years as a result of over use and surgery after breast cancer.

I also had long standing lymphoedema after the surgery too and with the Key Module treatments it is nearly all cleared up. I did not think this would be possible after so long.

Another problem area I had was discomfort sitting for any length of time - with Lucy's skilled hands and the key module treatments in the sacral region I have had wonderful results.

I cannot speak too highly of the Key Module, it has treated my body as a whole, I now function so much better after the treatments I have had.

Thank you Lucy.

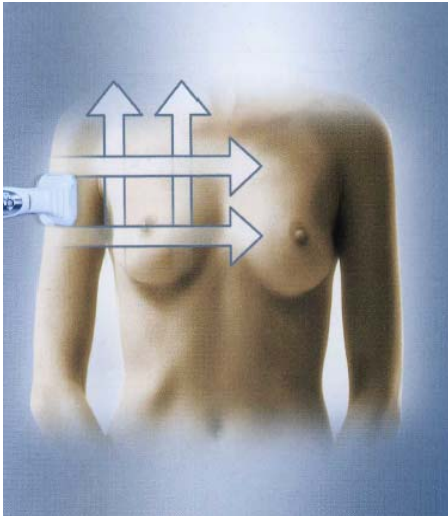

Lucy Liongue is the Principal Occupational Therapist working at Perth Integrated Health Clinic, who is also an accredited practitioner for Key Module treatment. Many of Lucy's patients present with lymphoedema and associated conditions in the neck, shoulder and arm regions (heaviness, pain, swelling).

Email: lucy@pihc.com.au Her patient is currently on a maintenance plan, seeing Lucy once a month for Key Module Treatment.
